

CENTER FOR DAIRY RESEARCH

The Center for Dairy Research (CDR) is the largest of six dairy research centers in the United States. CDR is housed in Babcock Hall at the University of Wisconsin-Madison, in a state-of-the-art, licensed facility. As a non-profit organization, our mission is to continue to advance the dairy industry and our success is measured by its success. As a CDR Industry Team (CIT) member, we work collaboratively in this mission.

CDR INDUSTRY TEAM MEMBER BENEFITS

Technical Support and Troubleshooting

- * Dedicated CDR technical point person
- * Access to 30+ scientists and researchers for analytical support
- * Onsite visits and support
